To Whom It May Concern:

Richard and his staff at Digital Business Solutions have been an excellent service and supplier for Fort James Corporation over a year now. I've worked with a lot of copier service companies in my thirty plus years experience and I can safely say these folks do a good job. Digital Business Solutions have impressed me with their professionalism, work habits and attitude to be the best copier service in town. In my opinion they have proved their goal many times over. They have always gone the extra mile to make Fort James Corporation in Fort Smith, AR copiers work efficiently every day.

The experience they have in evaluating the needs of each department, getting us the right machine for the job, has been equally gratifying.

I would recommend Digital Business Solution for copier service. They are dependable, honest and trustworthy for repairs and supplies for all my copiers. I have been replacing our copier machines with Konica for a year now, and that is one problem area I can rely on Digital Business Solutions to keep in tip top shape.

Cordially,

Ellen Offutt
