To Whom It May Concern:

Digital Business Solutions has worked for us many years. They represent Konica and do excellent work. Their prices are very competitive. They keep us up-to-date on any and all new equipment and training available. Their employees are very agreeable and respond to our request in a very reasonable time.

They are very professional in presentation and committed to doing a good job.

We are very fortunate to have Digital Business Solution and Richard Piechocki and his crew working for us.

Please don't hesitate to call if I can discuss in detail this fine supplier.
